Dear [MP Name]

I am writing to express my anger and condemnation of the offensive film entitled 'Innocence of Muslims', which portrays the Prophet of Islam Muhammad (peace and blessings be upon him, his progeny, and companions) in a very disrespectful and degenerate manner. This film and satirical magazine Charlie Hebdo's provocative

cartoons contains grave insults to the greatest Islamic personality of all time and leader of one of the world's major religions.

The United Kingdom, the United States and France are nations which guarantee Freedom of Expression to their people. However, freedom of expression does not include allowing messages of malice and ridicule towards others to be propagated, especially in regards to the beliefs and sacred icons of communities.

I therefore call upon our government officials, both national and local, to exercise their efforts to prevent the propagation of such disrespectful forms of media, which only incite hatred and animosity between people, in turn endangering the security and stability of the international community.

I also call upon all media outlets, YouTube in particular, to exercise their ethical and professional responsibilities of not allowing their mediums to be grounds for inciting disrespect, hatred, and violence.

We, as a nation, have the responsibility to be agents of peace, tolerance, and respect for one another. We must be able to show true justice by not allowing such disrespectful media to be propagated, and to call individuals and communities to engage with one another in a respectful and balanced way.

I would urge our leaders to act now to ban the Film 'Innocence of Muslims' and Cartoons, and request that all media outlets remove this film and anything related to it from their websites and other outlets immediately.

Yours sincerely,
[Your Name]
