

Here is something you MUST watch. It's more than an hour long, but it's one of these speeches that you come across once in a life time that may change your views on the situation in Palestine.

I don't normally insist that you watch something that I found that gets you to re-think the commonly held views, but this time around I DO really suggest that you take an hour and hear this man speak.

Most of the time, such radical opinions are quickly wiped out from the web, so do try and get to it as soon as possible.
