

Dear Muslim brothers and sisters,

It gives me great pleasure to announce that my program on Science in the Holy Qu'ran (31 half hour sessions) are broadcast from London, for the 5th year running, on Venus TV, Sky 805, at 2am and 5pm daily. On the weekends there is an extra broadcast at 1.15pm. Also available online.

It will be a great honour to share us to watch this program and especially let your mature children watch it so that the strong belief that the Qu'ran is from Allah fill their hearts.

Please forward this information to friends, family and whoever you feel would benefit.

Ranmadan Kareem,

Dr Adel Abbas MB, ChB, MPH, PhD, CBiol, MIBiol
