

Dear Imams,

AA

As you know, a lot of **negative ideas** regarding Islam and Muslims, are spreading more and more among the non-Muslims, British media and in Europe.

I am now looking for materials showing the **many positive contributions and the benefits** of Islam and Muslims to Britain and to Europe.

I hope to publicise it widely to the non-Muslims and to discuss it first on my weekly TV show. I would appreciate your help in this important matter in order to protect Muslims and Islam, especially as it looks to me ,it is going to get worse and worse???

Thank you for your help
