PROTECT YOUR CHILDREN

Priority campaign - national petition opposing school lessons in pornography (sexual immoral films in science lessons)

The Society for the Protection of Unborn Children (SPUC) has launched a **petition** to protect school children from the latest anti-life idea - pornography lessons in the classroom.

These lessons are not about how to avoid pornography; they are about dangling porn in front of young school pupils and encouraging them to embrace it in their lives.

Porn lessons are being promoted by the Sex Education Forum (SEF). The SEF is a broad coalition of pro-abortion and anti-family groups with strong 'establishment' support and wants sex education to be made compulsory in schools. Pornography harms young children (and others). As well as making them vulnerable to exploitation, it spreads the kind of sexual culture that drives up abortions.

Act now:

1. Sign the petition and collect signatures. [Click here](#) to download and print off a petition form
2. Read our flyer explaining the move to bring pornography into schools. [Click here](#) to see flyer
3. Will you organise a team of people in your area to deliver this leaflet door-to-door? This is so important, we must let the public know what is going on. Please call 020 7091 7091
4. Write to your MP today to voice your concern about pornography lessons in schools. Use [our webpage to contact your MP](#).
