Subject: incorrect eid or fitna

Dear brothers in islam

I came across a video of ummah channel on youtube the other day critising the saudi's for celebrating eid the wrong day.

Judging by your calculations of astrology which you seem to follow i have attached picture which i took as soon as i saw the moon I thought of you guy this was on the evening of 14th shawal just before magrib is this the moon of the 13th or 14th its a shame that you guys cant see unity within islam and being called ummah TV you spread fitna.

kindly provide any evidence you have on this matter to prove that eid was not done correctly by most of the uk ummah for a change as i also came across a distribution which i have also attached.

Brother a simple question is that when the majority is united on one thing why is it that a minority is causing doubt over this. is this a attack on saudi or what?

i have attached a article which i came across.

i look forward to hearing from you to help resolve fitna's spend by your channel.

also if you have any evidence of where this billion riyal compensation that saudi came from the please forward details.

also i have attached a link from saudi
